APT
Advanced Prop Tech

Advanced Prop Tech is a Southeastern-centric building systems integrator and technology partner serving multifamily, mixed-use, and commercial developments.

If there is an IP-address or wire, we have the team to install, service, and support the technology driving meaningful innovations.

We passionately serve the best interests of our customers. Our clients include developers, property managers, general contractors, electrical contractors, and low voltage designers and architects.

We can also manage technology installations for 3rd parties, such as SmartRent, Stratis, Butterfly, E-Property Care, and more.
